Noël Caleb
HONEY IN A ROCK
2011/2012 COLLECTION

Hold a gem hard in your heart, but let its soft light shine.

Noël Caleb's second collection is a gem to behold. Multi-faceted and sublime, favourite geometric gemstones were constructed into shapes and shades of fabric, in all the precious stone tones of a girl's best friends.

Slip into edgy, quirky separates and experiment in signature mix-and-match style. Then let yourself shine in dazzling emerald to muted jade, deep amethyst to yellow topaz.

Fluid yet strong, Noël Caleb's latest collection is like honey in a rock. A shimmering softness that is yours to catch, somewhere beyond the surface.
